—0—

All are heavily branched, plenty of room in the rows. The 1000 rates are give-away prices, but they are in a block that we want to clear by next spring.

### CONIFEROUS EVERGREENS

Our Evergreens are pruned consistently throughout the summer and are now in nice shape ready for immediate use in landscape work. Even the Chinese Arbor-vitaes (*Thuja orientalis*) have been several times pruned and are therefore compact.

All evergreens are B & B unless in pots or puddled. We have designated the ones that we think will go through in good shape a reasonable distance simply by puddling in stiff clay.

This applies to both conifers and broad-leaved.

		10	100
<b><i>Juniperus excelsa stricta</i></b>			
100 15 to 18 in.		1.25	
<b><i>Juniperus com. hibernica</i></b>
